AGENCY'S DISCUSSION AND ANALYSIS

The College of Charleston (hereafter, "the College"), including its component, the University of Charleston, South Carolina, has long been required by its regional accreditor and various secondary accreditors to have a strategic planning process. The current strategic plan was approved by the College of Charleston Board of Trustees in 2009, following a lengthy developmental process that engaged the College's various constituencies. Minor revisions have been made to the plan since its initial approval, with the most recent revisions made in 2013. The plan is posted at <http://www.cofc.edu/strategicplan/>. The College's Board also has adopted a diversity strategic plan and a campus master plan, both of which are responsive to the priorities outlined in the College's strategic plan.

In addition to our strategic plan and campus operation being continually evaluated internally and annually evaluated by the executive and legislative branches of state government, this past fiscal year the College completed its ten-year re-affirmation process with our regional accreditor, the Southern Association of Colleges and Schools, Commission on Colleges (SACSCOC). This was a robust and comprehensive review of our entire campus with standards reaching from plant operations to faculty credentialing. We submitted our formal written report in fall of 2016 and hosted an on-campus review team this past spring. The College received high praise for both our written report and our campus visit. We received zero recommendations and we fully anticipate final approval by the SACSCOC at their annual meeting later this calendar year.

The strategic plan is central to the College's annual process for budgetary development. All department, school, office, and divisional budget requests must be aligned with one or more of the plan's ten strategies. Each of the strategies is associated with a prioritized listing of tactics, which is periodically updated. Currently the strategic plan has 94 tactics, a reduction from the original 118 tactics approved in 2009. For each fiscal year, only some tactics receive funding, depending on the resources available for that year.

For the 2016-2017 Accountability Report, the College has once again adapted its strategic plan – consisting of goals, strategies, and tactics -- to align with the state's new strategic planning template, including the "1.1.1" template for goals, strategies, and objectives. For each objective in the strategic planning template, the College has included a parenthetical reference to the associated strategy and tactic in our strategic plan. For example, a parenthetical reference to "3.2" indicates that the objective is drawn from Strategy 3, Tactic 2, as provided in the College's strategic plan. In an effort to comply with the suggested number of goals, strategies, and objections, not all components of our internal strategic plan will be referenced in this Accountability Report.

This process of aligning our strategic plan with the State's Accountability Report and annual budget planning process affords the College the ability to reinforce and manage investment based budgeting that targets specific strategies, tactics, or objectives directly tied to the mission and vision of the College. The administration believes this process is imperative for the College to maintain its viability and excellent academic reputation. The shifting dynamics of the higher education marketplace mandate that institutions fund only those initiatives expected to return value and enhance the learning environment.

While we believe the five fundamental goals of our strategic plan are well guided, the College continues to consider adjustments to our ten strategies and 94 tactics to better position the College for appropriate growth in the coming years. The updates to these strategies and tactics are developed to directly address the shifting demands of our current and potential students. We are developing strategies and tactics aimed at increasing the number of non-traditional students, improving access for transfer students, adding academic offerings outside traditional degree programs, and providing additional opportunities for international students. These revisions will first and foremost be expected to enhance the learning environment and academic reputation of the College, but will also be required to better diversify our revenue model. Any strategic plan is limited by an organization's ability to finance its goals and the College of Charleston is no different.
